

Game: #3 (26127)
Date: 23 May 2007
Time: 1015 PM
Rink: East
Opponent: Code Blue 2

Phase Matrix defeated rival Code Blue 2 by a score of 6-0. Phase Matrix turned in a complete game, out shooting Code Blue 2 by a count of 41 to 12. An outstanding defensive effort limited the number of shots that goal tender Kevin Vaughn would face as a speedy attack, with outstanding puck movement provided the firepower, and drew 7 Code Blue 2 penalties. Jim Olsen led the way with two goals along with Randy Ayento who netted on and also had an assist. Tim Casson scored a shorthanded goal on a play in which he never gave up and Steve Wilhide and Gabe Gomez also scored for PM.

PM took 4 penalties while drawing 7 from Code Blue 2.

A note from our defensive assistant captain Gil Harrison:

Worth noting that Randy opened the scoring only 45 secs into the game with a great second effort lunging thru the air to knock it in. From there they were on their heels and we never looked back. A great start. Also, that we went with only 4 D, all 4 of us logging a lot of ice time, doing a great job of keeping the puck in their blue line and feeding the forwards who did a masterful job of cycling down low for extended periods of time that ran Code Blue's full bench of 15 skaters ragged. Code Blue's Craig Nakamura had to stand on his head in net to keep the score from hitting double digits so hats off to him. On our side Kevin made key stops that kept them frustrated and also played the puck up to the forwards a number of times to spark nice rushes up ice.

I agree, it was a very well executed game on our part. The guys showed good discipline and just played hard without stupid roughing/retaliation incidents.

We'll need more of the same against the K-Wings who I think are our toughest opponent this summer.

Gil.
