

Game: #9 (26469)
Date: 23 June 2007
Time: 9:30 PM
Rink: East
Opponent: Pacific Predators 2

A slow start dooms Phase Matrix.

After falling behind 3-0 Phase Matrix rallied to scores of 3-2 and 5-4 but just could not overcome the Predators who won by a final score of 6-4.

On a positive note Phase Matrix “won” the penalty battle 5 – 10 (the Predators were also assessed a team Game Misconduct for excessive penalties). Of the penalties that PM drew seven of them were for either tripping, holding or hooking. These are typically penalties teams take when they are being outworked and outskated. Also late in the 2nd period PM was able to kill off a full 3 minute Predator power play.

All three PM forward lines and defense contributed to the score sheet.

Next Up: Renegades
